RE: The Replication of Tapestry Public Charter School in Atlanta Public School

Dear Dr. Herring and Members of the Board for Atlanta Public School:

Tapestry offers an inclusive, individualized learning environment that is academically engaging, both for neurotypical students and students who qualify for special education services. This unique model will be an asset to Atlanta Public Schools.

On behalf of Neighborhood Planning Unit-N, I write to support the creation of Tapestry Public Charter School within the Atlanta Public Schools.

Tapestry's small size, co-taught classrooms, and intentional focus on individualization provides an opportunity for students to thrive where traditional and charter schools have historically struggled to meet the needs of students.

As a result, NPU-N asks that you approve Tapestry Public Charter School as a charter within Atlanta Public Schools.

Sincerely,
